*About this batch: This harvest includes two Mangalitsa pigs and two farm-raised spotted pigs. Mangalitsa is a traditional Hungarian lard breed known for rich, deeply marbled meat and exceptional, flavorful fat. Because fat content and texture differ by breed, belly, jowl, leaf lard, and back fat are priced and labeled separately by breed below. All other cuts are common pricing across both breeds.*

★ Pack sizes shown are approximate and actual package weights vary, so your **order total is an estimate** until we weigh your packages — we'll send a Square invoice for the final amount.
